CAREER OBJECTIVE

Motivated B.Tech CSE student specializing in Data Science with strong foundations in Python, SQL, and machine learning concepts. Seeking an internship opportunity to apply analytical, programming, and problem-solving skills in real-world software and data-driven projects.

SKILLS

Programming	Python, Java, C
Web Technologies	HTML, CSS, JavaScript
Database	MySQL
Libraries	Pandas, NumPy, Matplotlib
Tools	Git, VS Code, Jupyter Notebook

PROJECTS

Student Performance Predictor

- Built a machine learning model using Python and scikit-learn to predict student exam performance.
- Performed data cleaning, preprocessing, and visualization using Pandas and Matplotlib.
- Achieved approximately 85% prediction accuracy using Linear Regression techniques.

Weather Forecast Web App

- Developed a responsive weather application using HTML, CSS, and JavaScript.
- Integrated real-time weather API for live weather updates and forecasting.
- Improved responsiveness and usability for desktop and mobile users.

EDUCATION

B.Tech in Computer Science and Engineering (Data Science)

KL University | CGPA: 8.2 | Expected Graduation: 2028

CERTIFICATIONS

- Python for Data Science
- SQL Basics
- AWS Cloud Fundamentals

ACHIEVEMENTS

- Solved 150+ coding problems on LeetCode.
- Participated in college-level hackathon competitions.
- Actively learning machine learning and backend development concepts.

ADDITIONAL INFORMATION

- Strong interest in Data Science, Machine Learning, and Software Development.
- Comfortable working with team-based academic projects and presentations.
- Quick learner with good analytical and communication skills.
